

Many of you are concerned about asbestos in your homes, schools, and workplaces - and rightfully so! Unfortunately, there is no other agency in the U.S. that is even attempting to answer all your questions about asbestos, as well as provide laboratory services. If you suspect you are being exposed to asbestos, AVA can help!

What will the Asbestos Home Analysis Service Provide? Briefly, upon receipt of your check for \$50.00, payable to AVA, we will send a Sample Extraction Kit. This will include detailed instructions for taking a sample, the container, literature on NIOSH approved respirators, and a postage-paid mailing envelope. Your sample will be analyzed by qualified personnel, and you will be sent the laboratory report. If asbestos is determined present, information on corrective measures (encapsulation, containment, removal), will be provided. You need not be an AVA member to subscribe to our laboratory service, but we hope you will join with us to form a solid voice.

People want to join a winning team. AVA is definitely winning, but we are struggling financially for survival. We desperately need loyal, supportive members if we are to continue our humane efforts. AVA is basically "People helping People" - we hope you will join with us.

Sincerely,

JAMES E. VERMEULEN

JEV/en

P.S. And remember - ALL donations to AVA are tax-deductible! April 12, 1984

X Dear John:

It was a pleasure to receive your letter, along with the articles, and we wish to thank you for sending them.

We can't help but wonder where you got the AVA ADVISOR. It is sent to our membership and some of our friends - but to hear from so far away that you have seen one is incredible! If you have the chance, please let us know - we would appreciate it.

Thank you again, and we hope you will find the enclosed material informative.

Sincerely,

ASBESTOS VICTIMS OF AMERICA
